Minimum Balance Requirements

There is no minimum balance requirement to open the account. If your account remains at a \$0 balance for 50 consecutive days, your account will be closed. You must maintain a minimum balance of \$1.00 in the account each day to obtain the disclosed annual percentage yield.

Compounding and Crediting

We utilize a monthly statement cycle. Interest will be compounded and credited to your account every month. If you close your account before interest is credited, you will not receive the accrued interest.

Balance Computation Method

We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day. Interest begins to accrue on the business day an item is deposited.
