At our discretion, we may change the interest rate on your account.

Frequency of Rate Change

We may change the interest rate on your account at any time.

Minimum Balance Requirements

You must deposit at least \$10.00 to open the account. If your account remains at a \$0 balance or less for 50 consecutive days, your account will be closed. You must maintain a minimum balance of \$10.00 in the account each day to obtain the disclosed Annual Percentage Yield.

To avoid the imposition of the maintenance fee you must meet the following requirements: a maintenance fee of \$20.00 will be imposed for each statement cycle that the balance in the combined relationship accounts falls below \$20,000.00 on any day of that monthly statement cycle.

Compounding and Crediting

We utilize a monthly statement cycle. Interest will be compounded and credited to your account every month. If you close your account before interest is credited, you will not receive the accrued interest.

Balance Computation Method

We use the daily balance method to calculate the interest on your account. This method applies a daily periodic rate to the principal in the account each day. Interest begins to accrue on the business day an item is deposited.

Other Terms:

Business account balances will be taken into consideration for combined minimum balance requirements for individuals who are identified as a business owner.
